

Growing in 4th News

Room 205

October 27, 2017

Notes from Miss Anderson

- * In Reading and Writing, we read various nonfiction texts. Students took notes as they read to practice organizing their information for an informative piece. We discussed how to group related information into paragraphs.
- * Please remind your student to dress for the outside weather, as we have recess every day.
- * Next week we will be reviewing and showing what we know about multiplication strategies, solving word problems, and other math skills.
- * Our Halloween party is on Tuesday, October 31. Please remember your student should bring his or her costume to school, as students will change after lunch. No weapons are allowed, and please make sure your student's costume is not gory or too scary.
- * We had a great Red Ribbon week. We are looking forward to hearing about the total number of items brought in for the Food Pantry!
- * Weekly Progress Reports were sent home. Please sign them for your child to hand in on Monday.
- * Have a fantastic weekend!

Upcoming Events

November 3 - No School

November 14 - Family Science Night

November 15 - Late Start Day

Respectful Citizens

Coming Soon!

This Week's Focus

Reading:

- I can determine the main idea of a nonfiction text.
- I can use details to support my thinking.

Writing:

- I can organize my ideas and informative piece of writing.

Math:

- I can use arrays to find the factors of a given whole number.
- I can use multiplication to find all of the factor pairs for a whole number.
- I can use repeated reasoning to generalized how to solve problems.
- I can use factors to determine whether a whole number greater than one is a prime or composite number.
- I can use multiplication to find multiples of a given number.

Science:

- I can discuss ways humans could help repair the damage to the environment.

Social Studies:

- I can research the Northeast Region of the United States.
